

XTAL

THE CANADIAN AMATEUR RADIO OPERATORS ASSOCIATION.

LEASIDE, P.O.

Dear OM:-

This issue of XTAL is being sent to you for two reasons.

We are endeavouring to assist the Department of Transport in the task of compiling a complete and corrected list of VE addresses. It is therefore to YOUR benefit to let us know if your "KAG" arrived at your old address or whether it was forwarded to you at some new QRA.

We felt that it was high time that all the VE's in the country should know that they have a truly National organization, fully equipped to keep them posted of the doings in "HARDOM" in their own magazine. It is very important that YOU as a fully fledged VE get behind us and give us all the support you can. Our executive, made up of members from each district, will be pleased to receive your membership fee (one dollar), which entitles you to full membership privileges, and a years subscription to EXTAL. The MAG is really going places, increasing in thickness and quantity in each issue. It will get even better if you write us the story of your doings in the last four years, articles, war service record, war plant experiences, etc. You can help us let the FIVES and FOURS know what the ONES, TWOS and THREES are doing, and dont forget that this works both ways.

Watch the next issue of XTAL for news of the R.T.P.B. (Radio Technical Planning Board).

LETS COMPLETE THIS QSO WITH YOUR QRA
